Pub Date :2005-04 Publisher: Fujian Education Press Introduction for physical education. in fact. our country is in teaching and research. there are still more accumulation. Field of research in physics courses. both in the theoretical understanding or practical. there are obvious deficiencies. This basically is a the physical researchers consensus. However. in physics education research. there is a very important issue. it is a combination of educational theory and physics teaching. Educational theory absolute lack of gray. in the context of China's current educational transformation. much-needed educational theory ideas to guide the teaching and research of specific subjects. Of course. this educational theory also proposed a new. higher requirements. How the height from educational theory. combined with the specific problems of teaching physical education system. I have been thinking and will serve as the focus of the next time. This book is just the preliminary results of this thinking. it is imperfect. but has formed a prototype of a research framework and way of thinking. that the context of the ongoing curriculum reform movement and carrier to the...
