RWANDA: MALARIA OPERATIONAL PLAN FY 2014

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Malaria prevention and control is a major foreign assistance objective of the U.S. Government (USG). In May 2009, President Barack Obama announced the Global Health Initiative (GHI), a multi-year, comprehensive effort to reduce the burden of disease and promote healthy communities and families around the world. Through GHI, the United States will help partner countries improve health outcomes, with a particular focus on improving the health of women, newborns, and children. Rwanda has been selected as a GHI Plus country. The President's Malaria Initiative (PMI) is a core component of the GHI. PMI was launched in June 2005 as a 5-year, \$1.2 billion initiative to rapidly scale up malaria prevention and treatment interventions and reduce malaria-related mortality by 50 in 15 high-burden countries in sub-Saharan Africa. With passage of the 2008 Lantos-Hyde Act, funding for PMI was extended through FY 2014. Programming of PMI activities follow the core principles of GHI: encouraging country ownership and investing in country-led plans and health systems; increasing impact and efficiency through strategic coordination and programmatic integration; strengthening and leveraging key partnerships, multilateral organizations, and private contributions; implementing a woman- and girl-centered approach; improving monitoring and evaluation; and promoting research and innovation. Rwanda officially became a PMI country in FY 2007, although the USG had been supporting malaria control activities for several years before that. Rwanda has scaled up malaria control interventions successfully and has set the ambitious goal of achieving pre-elimination status by 2017. In early 2011, Rwanda was one of the first countries in sub-Saharan Africa to achieve universal long-lasting insecticidal net (LLIN) coverage with the distribution of over 6.1 million LLINs. Rwanda is implementing a universal coverage campaign in...
